The readers of his paper will be
pleased to learn that there is at least
one dreaded disease that science has
been able to cure in all its stages,
and that is Catarrh. Hall's Catarrh
cure is the only positive cure now
known to the medical fraternity. Catarrh
being a constitutional dis
ease, requires a constitutional treat
ment. Hall's Catarrh Cure is taken
internally, acting directly upon the
blood and mucous surfaces of the sys
tem, thereby destroying the founda
tion of the disease, and giving the pa
tient strength by building up the con
stitution and assisting nature in do
ing her work. The proprietors have
so much faith in its curative powers
that they offer One Hundred Dollars
for any case that it fails to cure.

THROW OUT THE LINE

Give the Kidneys Help and Many
People Will Be Happier.

"Throw Out the Life Line"—
Weak kidneys need help.
They're often overworked—don't
get the poison filtered out of the
blood.

Will you help them?
Doan's Kidney Pills have brought
benefit to thousands of kidney suffer
ers.

Read this Lexington case:
D. M. Farley, merchant, 474 Chair
Ave., Lexington, Ky., says: "I had
dull, dragging pains in my back. The
action of my kidneys was irregular,
especially at night. Finally, I used
Doan's Kidney Pills and before long
they put a stop to all these troubles.
My kidneys became normal and the
pains and aches left. The endorse
ment I gave Doan's Kidney Pills in
January, 1912, still holds good. I can
only repeat that they are a fine kid
ney medicine."

For sale by all dealers. Price 50
cents. Foster-Milburn Co., Buffalo,
New York, sole agents for the United
States.

Remember the name—Doan's—and
take no other.

ed By Dressmakers in the De
signs for Spring Gowns

Fashionably dressed women now
ing will not have any natural waist
Dressmakers have decided that
girdle shall be placed either above
below the normal line. For long-
lashed women the girdle will be near
the shoulder blades and for the
waisted women it will be shifted
over the hips, thus equalizing the
proportions.

his is one of the features brought
at the semi-annual style show
Chicago recently. More than 200
manufacturers attended the opening
session, and they represented 40,000
persons engaged in the dressmaking
industry. All the new styles were
displayed nightly on living models at
Orchestra Hall and explained by the
designer.

The exhibit showed numerous ex
treme styles for spring wear, with
high collars and a large variety of
printed crepe and taffeta will be
the popular fabrics for gowns and
three piece suits. There is a de
clined tendency toward better mate
rials and less trimming.

Fullness of the hips is produced by
the use of panniers, ruffles, tunics and
bustle bows, with skirts very long,
extremely narrow at the bottom and
lifted in the back. The fashion de
termined effort to revive the bustle,
although the first attempt will show
the use of immense bows.

as might be inferred, but is a new
